

'Flame Over' pro tips!

**Flame Over PRO TIPS direct from Laughing Jackal (PS Vita):**

We want you to experience *Flame Over* the hard way, learning for yourself like the Roguelikes of old; NetHack, and others we love. Here's some help to experience the game in the best way:

**Let's Play videos:**

Part 1: <https://www.youtube.com/watch?v=07gsXqKxTR8> - FULL of super handy tips!!

Part 2: [https://www.youtube.com/watch?v=9RCsloaA\\_6M](https://www.youtube.com/watch?v=9RCsloaA_6M)

**CONTROLS AND GUI – DIGITAL MANUAL:**

To help you learn the basics *please* check the digital manual pages on the Flame Over live area on your PS Vita, or in the Press Pack ([www.flameovergame.com/press](http://www.flameovergame.com/press)) and also below for your convenience:

## 'Flame Over' pro tips!

### **\*READ\* OUR LOADING SCREEN TIPS:**

They WILL save your life! :D You can access *many* hints and tips at the game's loading screen (cycle through them by pressing the **X** button.)

### **GENERAL HINTS:**

- Stand back from fires. If the Danger Meter around Blaze fills up you'll lose a heart.
- Use the CIRCLE button to throw water bombs which work on both normal and electrical fires.
- To complete a level you must put **all** fires out. An exit message will appear when you do. If there's even a sliver of red on your thermometer there's a fire.
- Use your thermometer to find the fires.
- Use the map to find the quickest way to the power room and get the electricity turned off. STAT!"
- Be sure to cycle between your active powerups using the left and right directional buttons.
- Rescuing people gives you an extra minute of time.
- Rescuing cats restores one heart to your health.
- If you're getting hurt you can always leave the room and regenerate health.
- Use your map (SELECT button) to look for the power room (lighting icon on map) ASAP.
- Smokey grey fires are electrical fires. They can only be put out with the extinguisher.
- Turning off the power kills off all electrical fires.
- If you soak an area with your hose, fire takes longer to spread there!
- The extinguisher is VERY effective, but doesn't soak objects, so be sure to follow up with a squirt of the hose.
- You don't HAVE to rescue people or cats or complete missions. Sometimes being quick is more important, especially in your early game.
- You must complete missions for Miss Ion to earn upgrade tokens. Use these at the Upgrade screen to unlock each upgrade category. Upgrade Tokens will be retained between games.
